Testosterone-Heptylate Testosterone-Heptylate is one of the longest standing testosterone compounds on the market, but it is also a bit rare in most circles. Some underground labs manufacture Testosterone-Heptylate, but the primary manufacture is Laboratoire Theramex out of France. Test Heptylate (Testosterone Heptylate) by ROHM Labs is an injectable Testosterone ester that causes highly effective protein synthesis into the muscles. It is a very long acting Testosterone product. It has a strong androgenic and anabolic effect. It leads to a strong protein synthesis in the muscle cell and promotes recovery to a high degree. Testosterone heptylate is excellent for the rapid buildup of strength and

muscle mass. When looking at the gain rates of bodybuilders who use Testosterone Heptylate Theramex this steroid, milligram for milligram, seems to have a stronger effect than enanthate, cypionate, and propionate. Testosterone Heptylate Theramex leads to a strong protein ... <https://yca.instructure.com/courses/2080/pages/25mg-anadrol-per-day-british-dragon-anapolon-50> R.O.H.M. Labs Test Heptylate Online.
