Winstrol, otherwise known as stanozolol, is one of the most commonly known steroids in the world. Most of the coverage of the steroid began in 1988, when Ben Johnson defeated his competition in the 100m sprint with a time of 9.79 seconds, shortly followed by testing positive for Winstrol. Also, there are options for injections under \$65-75 USD. The price is set for 10ml vial of the drug with a concentration of 1 ml / 50 mg. However, in the domestic USA market you can find options with 100mg. In this case, the cost increases to \$90-100 USD for 10 ampoules of a steroid. Often there are some Stanozolol brands costing more than \$120.
