Description Pharma sust 300 (Mix Testosterone 300mg/ml) Pharma Sust 300 or Sustanon is a drug that consists of several forms of testosterone. Initially, Sustanon, which was first released by the American company Organon, was used exclusively for therapeutic purposes, was prescribed to patients whose body did not produce the right amount of testosterone.

Sustanon 300 is a lesser popular form of Sustanon compared to Sustanon 350 or especially Sustanon 250 but is still considered pretty popular but extremely potent and powerful - even better than Sustanon 250.. In fact, there's almost no difference between Sustanon 250 / 300 / 350. All these versions of Sustanon contain the exact same 4 testosterone esters combined together.
