KIGTROPIN is a

recombinant human growth hormone. Kigtropin is produced by recombinant DNA technology in the E. coli secretion expression system. Kigtropin has the same 191 residue amino acid sequence as the native human growth hormone produced in the human body. A esperança de que o HGH auxilie na perda de

peso é, por exemplo, muito provavelmente equivocada: o estudo no qual esse efeito foi indicado, publicado em 1990 no New England Journal of Medicine, teve o seu uso indevido denunciado pela própria revista, que deixa claro que estudos posteriores indicam que a perda de peso obtida por pessoas com níveis normais de HGH não é significativa.

E ai, pessoal !!! Resultado do primeiro teste do GH KIGTROPIN 20 uis da primeira fonte (fonte "A") Em breve mais testes com outras fonte dessa marca e outras. [click here](#)
