group link in our bio. How strong is a 100mg edible is like asking how strong a shot of whiskey is. It's completely dependent on other factors.

Masteron (drostanolone propionate) Drostanolone Propionate is an anabolic androgenic steroid that first hit the market around 1970 under the trade name Masteron manufactured by Syntex. However, the compound was actually developed by Syntex in 1959 along with Oxymetholone (Anadrol) but would not be released until well after Anadrol. [official website](#)
