8 megapixels. Magic ultrasonic sensor cleaner-offer. 2.5 FPS. only three AF points. ISO 200, 400 and 800. 100 and 1,600 available in trick modes (Also possibly only 100 - 400 with 800 and 1,600 in trick modes). This is bad; all the competition go to 1,600 or more directly and look great doing it. JPG, TIF, RAW, RAW + JPG. Olympus E300 write speed test. E-300 set to manual focus and manual exposure 125/f8. Time taken from pressing the shutter at the start of 4 shots continuous mode, until the red light went out. Each card tested four times, and average time calculated from the fastest three. Most interesting is the comparison between 1 and 2 where we have the.

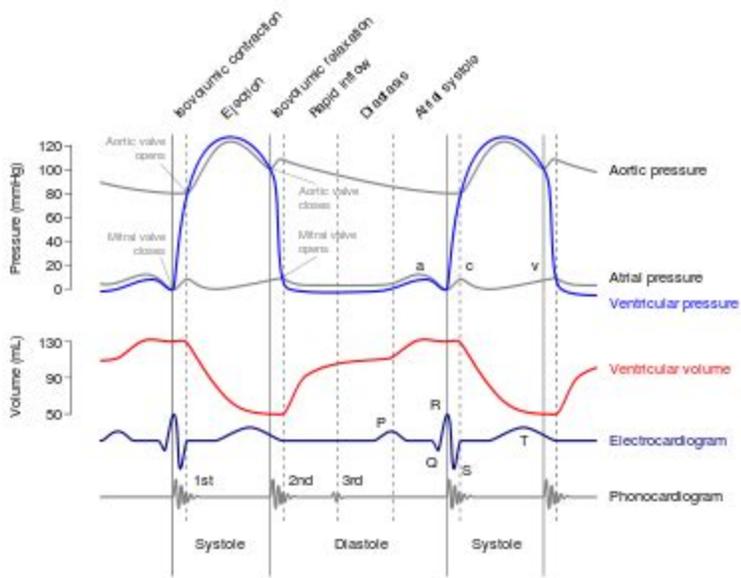

The Olympus E-300's overall color was pretty good throughout my testing, though I often noticed slight warm casts with its Auto white balance setting.

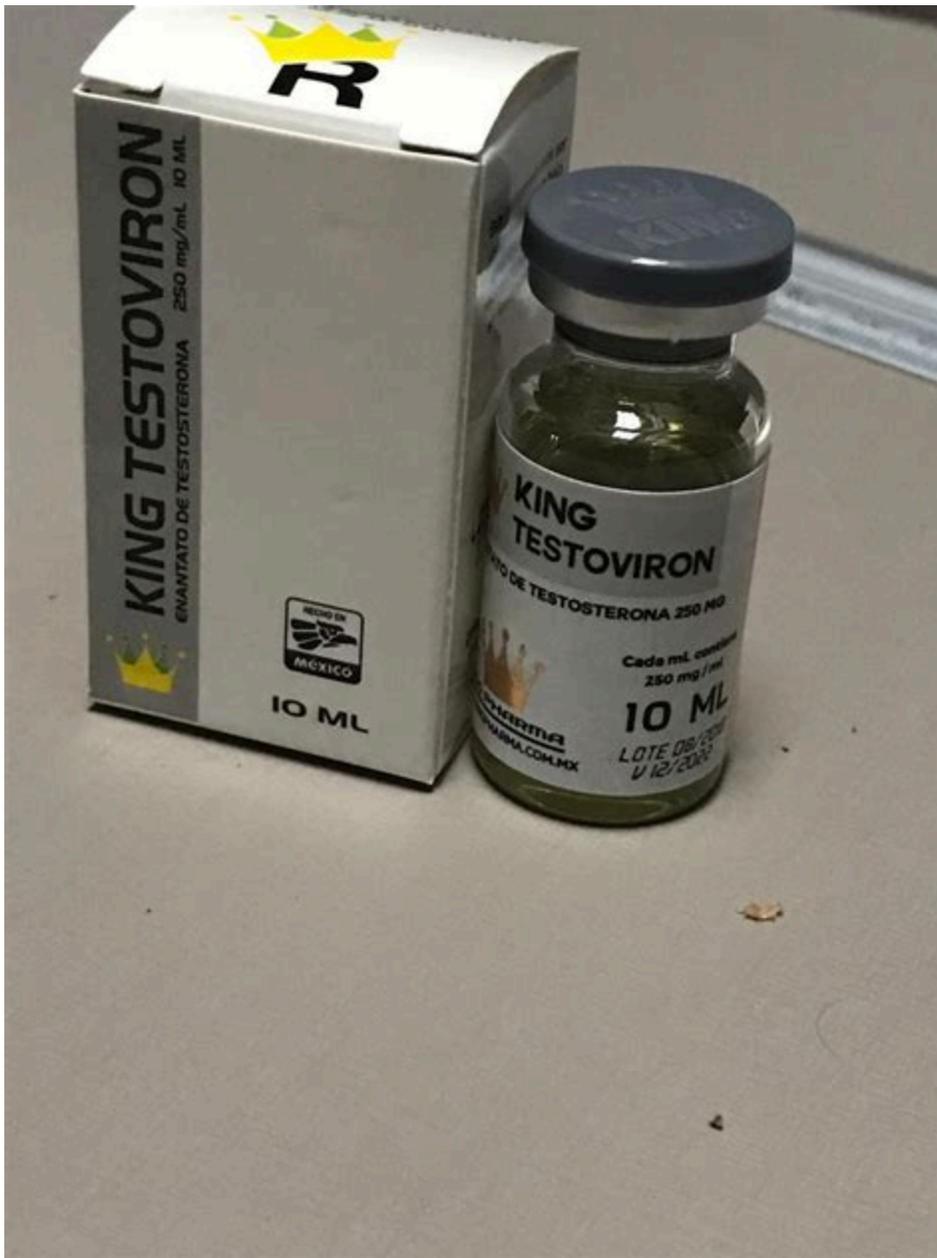

Detailed analysis of the Olympus eVolt E-300 images, from Imatest (tm) I've recently begun using Norman Koren's excellent " Imatest " analysis program for quantitative, thoroughly objective.

Test Olympus E-300. Marque : Olympus. Par. Ce E-300 fut une vraie déception pour quelqu'un qui avait en mémoire les excellents OM1 et OM2 et n'est certainement pas le reflet fidèle de ce que.

The E-300 ('EVOLT' in North America) became the second ever Four Thirds System digital SLR when it was announced by Olympus at Photokina 2004. The camera features an eight megapixel Kodak 4/3 Type CCD sensor, a Four Thirds lens mount and an unusual Optical Porro Finder. In my testing, the E300's flash weakly illuminated the test target at 14 feet, and showed decreasing intensity from the 10-foot distance on. Below is the flash range series, with distances from.

e300 test mode iso 50,60,80. Mar 13,

2006 I'm not sure if accessing this mode is a good thing but I messed with it for about an hour and everything still seems to work fine. Sorry about the bad pictures, it is 2:30am and i have class at 8:00am oops!. olympus e-300 i use a mac. [find out this here](#)
