Anadrol, Dianabol, most compounds as will at high doses keep elevated estrogen in check and lift mood/libido/sense of well being. Description Buy Proviron 25mg Online. Proviron 25mg is an post cycle steroid, this drug contains Mesterolone and is made by Bayer Schering. Proviron is a synthetic, orally effective androgen which does not have any anabolic characteristics. Proviron is used in school medicine to ease or cure disturbances caused by a deficiency of male sex hormones.

Description Proviron Bayer Schering 25mg Tabs. Proviron acts as an anti-aromatic: it prevents the aromatization (conversion) of anabolic steroids into estrogen. It avoids gynecomastia and can be combined with Nolvadex to increase its effectiveness. It is indeed clear that Proviron and Nolvadex are both anti-estrogens whose mechanisms of action are different and complementary, and that's why. [like this](#)

Mesterolone (Proviron) from Maha Pharma is dosed at 25 mg per tablet. It is not an anabolic but a very powerful anti-estrogen. Prevents gynecomastia, while decreasing the retention of water and fat, it allows the revival of the production of testosterone in testicles, while preventing the aromatization of anabolic. Proviron acts as an anti-aromatic: it prevents the aromatization. You can buy proviron in 25 or 50 mg tablets. The recommended dosage is 25 mg daily for both men and women. Although experienced athletes sometimes increase the daily dosage to 100 mg. In this case, it should be divided into 3 doses: 25 mg in the morning and evening, and the most voluminous dose - 50 mg - at lunchtime.

The usual dosage among male athletes is between 50 mg and 150 mg of mesterolone per day, or two to six 25 mg tablets. The drug is typically taken in cycles of 6-12 weeks in length, which is usually a sufficient period of time to notice the benefits of drug therapy.

In this case, a single Proviron dosage of 25mg per day is enough to alter the look of the physique. This should be done no longer than 4 - 5 weeks in order to avoid virilization effects. Proviron Cycles and Uses. Being that Proviron is not an anabolic steroid and possesses extremely weak anabolic effects, it is not utilized in the form of cycles. [updated blog post](#)
