THE SCIENCE. Hi-Tech Pharmaceuticals, Inc., launch of Pro-IGF-1™ with the successful extraction of IGF-1 production of Insulin-like growth factor type 1 (IGF-1) from whey protein is a revolutionary discovery for all athletes. Hi-Tech used a molecular biological technique to extract 175 ug/100g, which is a substantial amount of IGF-1.

Hi Tech Pharmaceuticals Pro IGF-1. The First Bioavailable Oral Supplement! Hi Tech Pharmaceuticals has finally announced its long awaited Pro IGF-1 supplement. The name of this product is short for Insulin-like growth factor type 1. It was extracted from whey protein. Why is IGF-1 so interesting and what is its function? [look at this site](#)

Hi Tech Pharmaceuticals formulated IGF-1 with their Liposomal delivery system to ensure their oral IGF-1 bypasses digestion and getting directly into the organs and cells where it can hit those receptors straight on. The Liposomal delivery system makes it 1500% more bioavailable to the body. And without that, IGF-1 loses most of its effectiveness.
