Description Stano-10 100 Tablets By Meditech. Stanazolol is a moderate anabolic and low androgen steroid. This means that it produces muscle mass and medium strength gains. However, the mass gained through Winstrol has the advantage of being of good quality and durable as this gain is not due to the soda hydro retention, as is the case for many anabolic. #anabolics #anaboliccoach #crossfit #fitgirls #womenwholift #fitchicks #fitnessgirls #bodybuilding #bodybuilder #powerlifting #fitness #fitfam #livefit #dedication #fatloss #anavar #shredding #diet #nutrition Description. I don't have anything psychological in terms of how I view my own body or weight. So I know it's okay to fluctuate up to my top level of 185 (I don't want to go below where I am now). But I don't want to go beyond my ideal. A way to set rewards was that I can wear stuff that I have had like old Birdwells from 6-7 years ago. They last forever, but aren't cheap. So it's cool to have them as if I went shopping. Also, in the next year I want to start training again, so I need to be in fighting fit mode.
