Testosterone enanthate is a synthetic hormone, unlike testosterone suspension. However, the ester attached makes it slow release, as the testosterone cannot become active until the ester begins to detach from the hormone itself. It releases slowly for the first 24-48 hours, at which point you will notice a huge peak of testosterone. Testovirin Depot-250. \$28.00. Substance: Testosterone enanthate. Package: 10 ampoules (250mg/ml) Manufacturer: BM Pharmaceuticals. Add to cart. Testosterone Enanthate is one of the most popular natural testosterone ester used in bodybuilding for bulking. It was considered as a king of injectable steroids in 80th. This is a long-acting steroid.

Testosterone Enanthate is an injection liquid. The anabolic effect of Testosterone Enanthate is directly proportional to the used dosage. The recommended dose is 250-500 mg per week, while the dosage most often increases with an increase in athlete's body weight. Injections are performed 1-2 times a week. Of course, some advanced athletes use.
