Zeneca. Alpha Zeneca. Testosteron Enanthate 10amp x 1ml 250mg/ml. Opis produktu. Jest sterydem anabolicznym na którym można zbudować bardzo dużą masę mięśniową oraz siłę. Dość szybko jest zauważalna retencja wody. <https://sway.office.com/7Bch44Rjm0R7H6os> Testosterone Enanthate is one of the oldest and perhaps the most commonly used anabolic steroid of all time. Testosterone Enanthate is a slow acting release form of the testosterone hormone and would be the first large/long ester testosterone form used. Synthetic testosterone itself would be developed in the 1930's. Testosterone enanthate is a synthetic hormone, unlike testosterone suspension. However, the ester attached makes it slow release, as the testosterone cannot become active until the ester begins to detach from the hormone itself. It releases slowly for the first 24-48 hours, at which point you will notice a huge peak of testosterone. W opakowaniu znajduje się 10 ml (10 ampulek x 1ml) roztworu o stężeniu 250mg/ml z firmy Alpha Zeneca. Skład: 1ml roztworu olejowego zawiera: 250 mg Testosterone enanthate. Alpha Zeneca jest jedną z najlepszych firm na polskim rynku, kupując produkt u nas gwarantujemy jego oryginalność i najlepsze działanie. Enanthate is considered a long ester form delaying the release for many days. Overall, Testosterone Enanthate is an anabolic and androgenic steroid (AAS) that is used in medical settings but is also very widely used for physique and performance enhancement purposes. Opis Alpha Zeneca Testosterone Enanthate 250mg/ml 10amp . Alpha Zeneca Testosterone Enanthate 250mg/ml 10amp to jeden z najczęściej stosowanych przez sportowców sterydów anaboliczno-androgenowych (SAA).Dedykowany jest zarówno dla początkujących, jak i bardziej zaawansowanych zawodników. <https://issues.apache.org/jira/browse/AAR-5383>
